

# DALLAS PISTOL CLUB RANGE RULES

## NEW MEMBER ORIENTATION

New members are required to receive this orientation and briefing on range rules and safety, administered by a designated DPC official, prior to shooting (other than during a match or as a guest). New members must read, understand, and sign the Membership Orientation Certification that they have read and agree to the Range rules below during the orientation.

The new member will be taken on a tour of the facility and the safety rules of each range explained.

The Front gate is to be kept locked at all times. Law Enforcement have their own gate codes for entry and the gate will close after entry. The gate will open automatically now when you exit (drive slowly as you approach). On weekends with matches, the gate will open and stay open until after the match starts and then close automatically. If you find the gate open upon arrival, please contact a BOD member.

### GENERAL

- \_\_\_\_\_ A. Access to this facility is restricted to:
  1. DPC members in good standing.
  2. Invited DPC guests accompanied by a member.
  3. Law enforcement officers accompanied by an authorized instructor for training.
  4. Match competitors for the duration of the match.
- \_\_\_\_\_ B. Shooting hours are from sunrise to sunset 365 days per year. The Air Gun Range may be used at any time. Make sure the lights are out and the heater/air conditioner is off when you leave.
- \_\_\_\_\_ C. Each new member can access this form on the [DPC Website](#) and this link to the DPC Match Schedule documented on the [DPC Website Calendar](#). The match schedule is to allow use of the range without conflict with regularly scheduled matches and to allow members to attend matches. Matches take priority over practice by members.
- \_\_\_\_\_ D. The City of Carrollton has granted the Club a Special Use Permit that limits the use of the range to members and their guests, and prohibits:
  1. The firing of shotguns, centerfire rifles of any caliber (including pistol cartridges and black powder cartridge rifles), automatic weapons (including mechanical devices used to simulate automatic fire, such as 'Slide-Fire' or 'Bump-Fire' devices) or black powder cannons.
  2. Pistol Caliber Carbines and Pistol Caliber firearms with a legal "brace" attached are prohibited. If you have a "Pistol" like the CZ Scorpion EVO, HK SP89 or clones, or similar, as long as it is configured as a pistol without a brace and barrel is less than 10" it can be used at the club.
  3. SHOTGUN Exceptions: Shotguns may be used only during any Club Sanctioned Competition match. Shotguns may not be used for practice on any range. Rifles used during matches or for practice may only use rimfire ammunition. An approved list of pistol and rifle cartridges for use at the club is posted in the clubhouse, and attached to this end of this document
  4. The firing of any firearm into the water, or property adjacent to our property, or in any direction other than North.

## DALLAS PISTOL CLUB RANGE RULES NEW MEMBER ORIENTATION

\_\_\_\_\_ E. All members using the range must display their membership badge, card (electronic from [MemberPlanet](#)) or have their printed card readily available while on the range. A member must accompany visitors.

DPC is now using electronic waivers exclusively. There are several methods to procure an Electronic Waiver for your guest(s) as shown below.

\*Please make sure to perform the electronic waiver process BEFORE going to the bay(s) for shooting and remember that guests are your responsibility and must be escorted at all times.

\*\*Electronic Waivers are only valid for the day of use. A new one must be procured for every day that a guest is shooting/observing. Each guest must sign a separate form. A parent/guardian must complete one for minor(s).

You may use the following methods to procure an electronic waiver:

1. In the clubhouse use the tablet mounted on the wall to the right of the stat office door.  
\*Instructions are posted above the tablet on its use.
2. You may procure an electronic guest waiver by using the following link to the waiver from a connected phone or a computer's web browser: <http://bitly.com/dallaspistolclub>
3. You may also scan the QR code shown below on a connected mobile device to go to the electronic waiver:

\_\_\_\_\_ F. Guests must, at all times, be under the member's direct supervision whether on the firing line or not. Do not allow guests to wander around on the range. The member is always directly responsible for the conduct of his guests, just as he is responsible for his own conduct. The member should explain DPC Safety Rules to his guests before bringing them to the range. Children should not be brought to the range unless they can be constantly supervised. We allow no more than three (3) guests per member.

\*All guests must sign an electronic waiver each day. This must be done even if the guest is only an observer.

\_\_\_\_\_ G. Teaching classes or qualifying shooters for Certification purposes at the Club is strictly prohibited unless specifically approved by the Board of Directors.

## DALLAS PISTOL CLUB RANGE RULES NEW MEMBER ORIENTATION

\_\_\_\_\_H. Non-members or trespassers using the range should be reported to the Carrollton Police Department. The non-emergency phone number is (972) 466-3333. Competitors participating in an authorized match who are not DPC members do not have access to, or use of, ranges not being used in the current match.

\_\_\_\_\_I. Club bulletin boards: Buy and sell notices may be posted on the bulletin board on the west wall just to the right of the refrigerator. Please date your notices because they will be removed after three months. Other bulletin boards are labeled as to their function.

\_\_\_\_\_J. The Statistical Office will be locked unless a match is in progress. Paper targets are for sale in the Target Shed. The Honor System is in effect for payment. Payment box is on the back wall.

\_\_\_\_\_K. This is a volunteer organization. All work is done by volunteers, such as emptying trash, range maintenance and running matches. Members are expected to help as much as possible. Work parties are scheduled on the first Saturday of the month at 9 a.m. Please come out and help maintain the range.

\_\_\_\_\_L. No Alcoholic beverages are allowed in the shooting areas at any time. Alcoholic beverages may be consumed on range property only when the shooter has finished all shooting for the day and all of his/her guns are secured.

\_\_\_\_\_M. Club members are encouraged to be members of the NRA or any other 2<sup>nd</sup> Amendment support organization. Texas State Rifle Association membership is also encouraged.

\_\_\_\_\_N. Black Powder Muzzle-Loading rifles may be only fired on the east end of the Bullseye Range and from the covered firing line (100 meter) on the Silhouette Range using paper targets only. Black Powder Cartridge Rifles are NOT allowed to be fired on any range.

\_\_\_\_\_O. New members will receive a gate code (electronic and manual gates). Do not give this code to anyone! Non-members found to be using your gate code will cost you your membership.

\_\_\_\_\_P. The Club Website can be found at [www.dallaspistolclub.com](http://www.dallaspistolclub.com). This website includes information about the club, notices to members, match information, training information, and information restricted to club members only.

### RANGE SAFETY RULES APPLYING TO ALL RANGES

\_\_\_\_\_A. Be aware of what others are doing and where they are. Do not go forward of the firing line until it is safe, and everyone acknowledges that it is safe.

\_\_\_\_\_B. ALL FIREARMS MUST BE UNLOADED AND BENCHED, BAGGED OR HOLSTERED BEFORE ANYONE GOES DOWN RANGE. DO NOT HANDLE FIREARMS WHILE ANYONE IS DOWN RANGE.

\_\_\_\_\_C. All targets must be placed so that all bullets hit the berm/backstop, not flat ground.

\_\_\_\_\_D. Eye and ear protection are required for spectators as well as shooters on all ranges.

## DALLAS PISTOL CLUB RANGE RULES NEW MEMBER ORIENTATION

- \_\_\_\_\_ E. Do not shoot phone books, bottles, cans, bowling pins/balls, golf balls, sporting clays or any breakable target on any range. Do not shoot barricades, chairs, barrels, cinderblocks, or any other range equipment.
- \_\_\_\_\_ F. All freeform ranges (practical bays) are under the control of the first shooter on the range. This includes the establishing the firing line position and cease-fire breaks.
- \_\_\_\_\_ G. Make sure that the range you wish to use is safe. Check the berms and remove any barricades, benches and tables from the firing and impact areas. Any damage to berms or any unsafe condition must be reported to a Director. The [names and phone numbers of Club directors](#) are on the website in the "Members only" section (Login is required).
- \_\_\_\_\_ H. Never intentionally point the muzzle of a loaded firearm above the dirt in the berms on all ranges. We do not want any possibility of a projectile leaving the range property. The only case where a firearm can be pointed above the dirt berm is a revolver when the cylinder is opened to eject spent cases during reloading and for Rimfire Tube Fed Rifles, or Muzzle-loading firearms when loading. Unloaded long guns may also be elevated for temporary storage with the action locked open.
- \_\_\_\_\_ I. Shooting handguns, or rifles from the prone position is not allowed on any of the ranges. Any exemptions to this rule must be approved by the Board of Directors.
- \_\_\_\_\_ J. Keep your finger off the trigger unless the firearm is pointed at your target or the berm, when reloading and when moving.

### TARGETS

- \_\_\_\_\_ A. Frame mounted paper targets and steel targets are approved for use on DPC ranges. Only one target per metal frame (except for rimfire rifle practice) is allowed, and targets and frames must be returned to storage after use.
- \_\_\_\_\_ B. Eight (8) yards is the minimum range for shooting at steel targets. If you bring in steel pepper poppers they must be forward falling.
- \_\_\_\_\_ C. Do not use any load or bullet that damages target equipment. Do not use ammunition that deforms steel targets.
- \_\_\_\_\_ D. Shooting at cans, bottles, telephone books, golf balls, clays, or anything other than approved targets is not permitted. Shooting at chairs, barricades, cinderblocks, or other range equipment is prohibited.

### AIR GUN RANGE

- \_\_\_\_\_ A. No firearms are allowed in this range. Targets must be placed in the frames provided. If you operate the air conditioner or heater, please make sure the timer is off when you leave.
- \_\_\_\_\_ B. The use of BB guns in this range is prohibited due to ricochet problems. Do not use high-powered air guns due to the possibility of ricochet, damage to target backstops or penetration of the back wall into the work area behind. As a rule, do not use an air gun with a muzzle velocity of more than 600 feet-per-second.

# DALLAS PISTOL CLUB RANGE RULES

## NEW MEMBER ORIENTATION

\_\_\_\_\_ C. Targets placed in the target frames must be run all the way down to the backstop. Do not stop the target carrier part way down the range to shoot at it due to the possibility of projectiles passing through the wall into the work area behind.

\_\_\_\_\_ D. Air Guns (CO2 or Pump, pellets, or BBs) are allowed on ANY OTHER physical range at DPC. This includes Bullseye, Action Bays and Silhouette bays. Air gun "spinner targets" are also allowed on any range.

### SILHOUETTE RANGE

\_\_\_\_\_ A. This range is a free-form range that may be used from any distance with the following exceptions:

1. The first member on the range controls the range. Please accommodate and work with other members wanting to use the range.
2. All shooters on this range must shoot from the same distance.
3. Do not shoot into the concrete side walls, conveyor belt or into the ground below the berm.

\_\_\_\_\_ B. Black powder rifles may be fired on this range only from the covered firing line (100 meters).

\_\_\_\_\_ C. Be aware that there are steel pipes set in the ground at the 15 and 25-yard lines for Law Enforcement training. These pipes could damage your tires if you drive over them.

\_\_\_\_\_ D. Do not hang targets from the baffle support poles or use them for shooting supports.

\_\_\_\_\_ E. Do not climb or walk on the berms at the north end of the Silhouette Range. This degrades the berms.

### BULLSEYE RANGE

\_\_\_\_\_ A. The Bullseye Range must be used from the firing line only; do not shoot in front of the concrete.

- All targets must use target frames and must be placed in the target holders provided on the 25 and 50-yard lines.
- Only one target center/aiming point is allowed per target frame due to the possibility of frame damage (Exception: Rimfire rifle shooters may use targets with multiple aiming points/targets).
- You may use as many frames as space allows without conflicting with othershooters.
- You must use a target in a target frame on this range to ensure all bullets strike the berm.
- Rimfire and black powder rifle shooters are restricted to the east end of the Bullseye Range.
- No targets may be placed on the 25-yard berm or on the 50-yard target rail. Do not shoot into the 25-yard berm.
- No unsecured firearms may be placed or handled behind the firing line.

\_\_\_\_\_ B. Every person on the Bullseye range is responsible for insuring that everyone acts in concert for the safe use of this range. They must make sure that everyone understands the range status for all users on this range.

## DALLAS PISTOL CLUB RANGE RULES NEW MEMBER ORIENTATION

- \_\_\_\_\_ C. Observe the commands for this range. "CLEAR TO GO DOWN RANGE?" Make certain all firearms are unloaded; do not handle firearms while anyone is down range. Make sure everyone acknowledges this command before going down range. When everyone has returned to the line ask, "IS EVERYONE BACK?"; "CLEAR TO FIRE?" before handling firearms.

### TARGET SHED

- \_\_\_\_\_ Target frames must be returned to the target shed after use. If the frame is damaged, place it in the repair area on the left wall. Replace all frames in the racks provided; do not lean them against the wall. Remove any shot up targets and trash and dispose of it in the trashcans or dumpster provided.

### POLICE RANGE

- \_\_\_\_\_ This range is closed for member use.

### PRACTICAL PISTOL RANGES (Action Bays)

- \_\_\_\_\_ A. The Practical Ranges are located behind the Bullseye Range and may be used at any time a match is not being conducted. The steel plates on all bays may be used for practice. Steel may be moved between bays. Target holders & sticks (cardboard targets in the white barrels) are kept on the bays.
- \_\_\_\_\_ B. Please do not leave anything on these ranges. Pick up your trash and dispose of it in the trash cans. Please pick up all un-reloadable (Steel and Aluminum) cases and dispose of them in trash cans.
- \_\_\_\_\_ C. When shooting in the action bays, you must shoot from within the concrete walls (north of the red steel posts). Do not shoot from the road or from any position where you can see into another bay or see shooters in other bays. Do not shoot in any direction other than to the north. No shots may impact either the concrete walls or the dirt berms on the east or west of each bay.

### INTERNATIONAL RANGE (South of the Clubhouse):

- \_\_\_\_\_ This range is used only for approved air gun practice and matches. No firearms are allowed on this range. Report any shooting activity in this area to the Carrollton Police Department.

### FIREARM HANDLING AND TRANSPORT

- \_\_\_\_\_ A. DPC operates as a COLD range at all times: That means all firearms must be empty, with hammer down, and magazine out except on a firing line when firing and except for firearms carried under the authority of a License to Carry (LTC) issued or accepted by Texas and are concealed.
- \_\_\_\_\_ B. If you have a LTC and are carrying a loaded firearm when you arrive at the range, the firearm must either be concealed, be secured in your vehicle, or unloaded as soon as safely possible on one of the ranges or in one of the safe areas if the firearm is to be used in a match.

## DALLAS PISTOL CLUB RANGE RULES NEW MEMBER ORIENTATION

- \_\_\_\_\_ C. During matches, firearm handling or loading may begin only upon instruction from the Range Officer. No loaded open carried firearms will be allowed for match participants or match observers unless under the direction of a Range Officer. Loaded Open Carried firearms are strictly prohibited for match observers.
- \_\_\_\_\_ D. Empty firearms may be transported via holster, shooter's bag, box, pistol rug, or carrying case anywhere on DPC property.
- \_\_\_\_\_ E. Firearms are to remain in the holster, bag, box, etc. unless on the firing line or in the safe areas. No ammunition is allowed in a SAFE AREA except when loading or unloading a firearm.
- \_\_\_\_\_ F. Long Guns (Shotguns and AR .22) used at club matches will be bagged at all times unless on the line or in a designated safe area. Long guns may be un-bagged at the line under RO supervision. When you are called to the line, transport your bagged long gun to the line. When you have finished shooting, the RO will clear you, then re-bag your long gun. When moving from stage to stage your long gun will be bagged.
- \_\_\_\_\_ G. Firearms may not be handled when anyone is down-range. All firearms must be unloaded before anyone goes down-range. Any competition match or organized practice involving multiple shooters at a common firing line: e.g., Bullseye, Silhouette, must utilize Empty Chamber Indicator (ECI) devices to show an empty chamber when shooters go downrange leaving grounded or unbagged firearms at the firing line.
- \_\_\_\_\_ H. Never intentionally point a loaded firearm above the dirt berm on any range.

### COURTESY AND CONFRONTATION

- \_\_\_\_\_ Any violence, threat of violence, or continuation of an unsafe practice will not be tolerated.

### RANGE PRIORITIES

- \_\_\_\_\_ A. DPC approved and scheduled matches, and Law Enforcement training always takes precedence over individual practice.
- \_\_\_\_\_ B. The Bullseye Range will be left open for practice during matches (except during scheduled Bullseye matches).
- \_\_\_\_\_ C. When the entire range must be closed for a major match or Championship, a notice will be posted in the Clubhouse, on the Club website and the DPC Facebook page. This typically only applies to the Glock Shooting Sports Foundation GSSF yearly match.

### PROTECTIVE EQUIPMENT

- \_\_\_\_\_ Eye and ear protection is required on all ranges for all shooters and spectators. Wear eye and ear protection whenever anyone is shooting, but especially around steel targets due to back splatter.

# DALLAS PISTOL CLUB RANGE RULES

## NEW MEMBER ORIENTATION

### HOLSTERS USED IN COMPETITION

- \_\_\_\_\_ A. Holsters used in competition must be of appropriate design for the firearm. A proper gun belt must be used in conjunction with a holster. All holsters used in competition are subject to Match Director approval. When practicing with a new type holster or new type firearm, please get plenty of dry-fire practice before you bring it out to the range for use.
- \_\_\_\_\_ B. The following holster types are prohibited at DPC for competition use:
- Shoulder Holsters
  - “Serpa” style holsters that require a button near the covered trigger guard to release
  - Appendix carry Holsters
  - Small of Back Holsters
  - Cross-Draw Holsters
  - Soft Squishy Leather, Nylon or fabric holsters that do not have a rigid opening which requires you to use the muzzle of the gun to open and re-holster.
- \_\_\_\_\_ C. Recommended holsters for competition:
- Any good Kydex or Plastic manufactured holster from Comp-Tac, Blade-Tech, Fobus, and others are excellent. Comp-Tac and Blade-Tech are major sponsors for most of the shooting sports and should be supported when possible.
- \_\_\_\_\_ D. Use extreme caution when drawing and re-holstering a loaded firearm. Use the proper technique when drawing a loaded firearm from a holster. Do not sweep your hand/body while re-holstering. Your holster should have a supported opening and you should be able to holster your firearm without having to use your off hand to re-holster. There are many good videos on YouTube that you can watch to learn the proper technique for drawing and re-holstering. This is an example of proper technique: [The Tactical Draw](#)

### FIREARM MALFUNCTION

- \_\_\_\_\_ In the event of any unsafe condition with your firearm, CEASE FIRING IMMEDIATELY!!

Examples of unsafe firearm malfunctions:

- a. Semi-autos:
  1. Hammer follows slide to battery.
  2. Firearm fires more than once for each pull of trigger (Goes “full-auto”).
  3. Safety fails to engage.
  4. Firearm fires before slide/bolt is fully locked up.
  5. Any breakage of a part or parts that disables the firearm or any safety device on the firearm.
- b. Revolvers:
  1. Excessive lead spitting.
  2. Cylinder fails to lock into frame properly.

\*Do not use the firearm again until it has been repaired and returned to a safe condition.

# DALLAS PISTOL CLUB RANGE RULES

## NEW MEMBER ORIENTATION

### DANGEROUS AMMUNITION

- \_\_\_\_\_ A. Ammunition ruled unsafe by a Range Officer, Match Director or Club Official cannot be fired at DPC. This will include excessive pressure, reversed primers, split cases, repeated jams, and squib rounds that fail to exit the muzzle. Squibs must be removed under the supervision of a Range Officer or Match Director (if during a match), otherwise, in a safe area and direction so as not to endanger others. Only approved cartridges may be fired (see current list at the end of this document).
- \_\_\_\_\_ B. A container for ammo disposal is located behind the safe area closest to the Bullseye Range.

### NEW COMPETITORS

- \_\_\_\_\_ A. A new competitor is anyone (member or non-member) who is:
1. Competing at DPC for the first time.
  2. Competing in a particular type of match for the first time.
  3. Unsure or is seeking additional instruction and supervision.
- \_\_\_\_\_ B. New competitors are required to identify themselves to the Match Director at registration and to each Range Officer when called to the firing line.

### FIRING LINE DURING MATCHES

- \_\_\_\_\_ Each range has one identifiable firing line at any given time. In some matches, i.e. Bullseye, the firing line remains constant throughout the match. In other matches, the firing line may change during the match. The line is "hot" when a shooter's firearm is loaded. It is "cold" or "clear" when the Range Officer declares it so. No one can cross the firing line until it is declared "cold" or "clear" and the Range Officer gives permission to go downrange. The squad and observers should remain 6' behind the firing line/competitor, RO, and score keeper.

### FUNCTION TESTING, DRY FIRING AND PRACTICE DRAWS

- \_\_\_\_\_ A. Function testing with live ammo must be under the direct supervision of the Range Officer during competition.
- \_\_\_\_\_ B. During individual practice, function testing must be done on a firing line, in a safe direction, and with no one forward of the firing line.
- \_\_\_\_\_ C. Practice draws and dry firing with an empty firearm are permitted only on the firing line. During competition, practice draws, and dry firing are allowed only under the direct supervision of the RO, if time permits. (When the RO says "Make Ready" perform your practice draw and take a site picture then).

# DALLAS PISTOL CLUB RANGE RULES

## NEW MEMBER ORIENTATION

### SHOOTER ERROR DURING MATCHES

\_\_\_\_\_ Accidental discharge, dropping a firearm, breaking the 180-degree line, failure to remove the finger from the trigger guard during movement or reloading and the shooter covering himself or others during gun handling and elevating the muzzle above the dirt berm are major shooter errors and are violations of DPC range rules. Infraction of these rules during competition may result in disqualification from the match.

### SAFE AREAS

\_\_\_\_\_ There are two (2) concrete safety cages in the front area of the club where preparations may be made for a match or firearms may be configured, worked on or secured. No ammunition may be present in the safe areas while firearms are being prepared for a match or worked on except for unloading a firearm in preparation for a match or loading up in preparation for leaving the club.

### MATCH RULES

\_\_\_\_\_ When participating in match competition, you must abide by the match rules as well as the range safety rules. In the event of overlap or conflict, match rules will prevail. Each type of competition will have its own rules. The competitor is required to familiarize himself with those rules before competing. All non-members who are participating in or observing any club match must sign a match liability release form before participating in or observing the match. Match rules for the different type matches are posted on the website: [Competitions at Dallas Pistol Club](#)

### MATCH REGISTRATION

\_\_\_\_\_ All matches at the club are available on the [PractiScore](#) website to register and to see scores. Search for "Dallas Pistol Club" to see the matches.

### EMERGENCY PROCEDURES

\_\_\_\_\_ A. If an incident or accident happens that requires emergency services, call 911 and request police and/or medical assistance:

- Give the Club Address of 1830 W. Belt Line Road and the location on the range.
- Use the Downed Officers Kits in the competition buckets or any available first aid kit as necessary for immediate aid.
- If someone is available, send them to the front gate to direct emergency personnel.

\_\_\_\_\_ B. Call a Club Director and inform them of the situation ([On the Website](#)). Failure to report such incident may result in loss of membership.

\_\_\_\_\_ C. Record the names, response times and any details necessary to document the incident.

# **DALLAS PISTOL CLUB RANGE RULES NEW MEMBER ORIENTATION**

## **PENALTIES AND ENFORCEMENT**

- \_\_\_\_\_A. Penalties for safety rule violations during match competition may include immediate disqualification from the match. Enforcement authority and responsibility is assigned to the Range Officer and to the Match Director.
- \_\_\_\_\_B. At all other times, any DPC member noticing a safety violation should inform the individual of the rule being violated and ask him to conform to DPC safety rules. If a serious violation, the Board should be notified of the name of the member and the infraction.
- \_\_\_\_\_C. If the violator refuses to follow DPC safety rules, the member may make a complaint to the Board for appropriate penalties. Penalties may include loss of range privileges for a specific period of time or expulsion from Club membership. Enforcement authority and responsibility are assigned to the Board of Directors.

## **BOARD OF DIRECTORS**

- \_\_\_\_\_A. The Club is governed by a Board of Directors, which has the authority to add, amend or modify any of these rules. Notice of rule changes will be published on the Club website.
- \_\_\_\_\_B. The Club holds a monthly Director's meeting on the first Tuesday of the month at 7 p.m. in the Clubhouse (and the Annual Meeting is now the first Tuesday in December at 7 p.m.) All members are welcome to attend the meetings.
- \_\_\_\_\_C. Any questions regarding Club rules, any unsafe condition of the range or violation of the rules by any member, guest or competitor should be brought to the attention of the Board. This can be done either by contacting a Board member directly (phone numbers are posted on the website) or at the monthly meeting.

**REMEMBER: SAFETY IS YOUR DIRECT RESPONSIBILITY. ANY UNSAFE ACT MUST BE  
CORRECTED IMMEDIATELY. DO NOT BE EMBARRASSED TO CORRECT SOMEONE. IF YOU  
NOTICE AN UNSAFE RANGE CONDITION, NOTIFY A MEMBER OF THE BOARD OF DIRECTORS  
AS SOON AS POSSIBLE.**

## DALLAS PISTOL CLUB RANGE RULES NEW MEMBER ORIENTATION

# Membership Orientation Certification

Each member will be issued a Clubhouse key, and an Air Gun Range key if desired. New Members will be issued a gate code.

This page of the New Member form, signed, dated will be retained by the club as proof that you have completed the new member orientation.

This form is to be used only as an orientation for a new member of the Dallas Pistol Club. It is not intended to be an evaluation of a member's actual shooting ability or safety. The member is both primarily and ultimately responsible for his or her safety and the safety of their guests.

I hereby certify that I have read and understand all the DPC Range Rules.

# DALLAS PISTOL CLUB RANGE RULES

## NEW MEMBER ORIENTATION

7JUN2020-Edited

### APPROVED CARTRIGES FOR USE AT DPC

The following **listed cartridges** are the only rounds approved for use at DPC. Unless specifically approved, no bottleneck cartridges are allowed. No shotguns may be shot at The Club **except** during approved **Tactical Shotgun Matches, typically in 12 gauge with lead shot and slugs only, as approved by the Match Director.**

Centerfire cartridges that are interchangeable with rifles, may only be fired through a handgun with a barrel length of no greater than 10 inches. Pistol Caliber Carbines (PCC's) and Pistol Caliber firearms with a legal "brace" attached are prohibited. If you have a "pistol" like the CZ Scorpion EVO, HK SP89 or clones, or similar, as long as it is configured as a pistol without a brace, and barrel is less than 10 inches, it can be used at the club.

**Again, the use of centerfire rifles of any kind is strictly prohibited at the DPC. In rifles, only the .17 and .22 rimfire cartridges listed below are permitted and note .17 WSM rimfire is not allowed. No armor piercing, tracer or incendiary ammunition is permitted at the DPC. Lastly, please ensure your ammunition is not damaging any of our steel targets.**

.17 Mach II *	.38 Auto
.17 HMR *	.38 Super
.22 LR, Long, Short *	.38 Super Comp
.22 WMR (aka .22 Magnum) *	.38-45 Clerke (Auto)
.22 Rem. Jet	.357 SIG (Auto)
.25 ACP (Auto)	.357 S&W Magnum
270 REN	.38-40 Win.
.30 M1 Carbine	.40 S&W
.30 Luger	.40 Super
.30 Mauser 7.62x25mm Tokarev	.400 Cor-Bon
.32 ACP (Auto)	10mm Auto
.32 NAA	.41 Action Express (AE)
.32 S&W	.41 Rem. Magnum
.32 S&W Long	.410 Shotshell (Handgun Only)
.32 H&R Magnum	.44-40 Win.
.327 Federal	.44 S&W Special
.32-20 Win.	.44 Rem. Magnum
8mm Nambu	.45 GAP
.380 ACP (Auto)	.45 Auto Rim
9x18mm Makarov	.45 ACP (Auto)
9x19mm / 9mm Luger / 9mm NATO	.45 Colt (aka Long Colt)
9mm Largo	.45 Super
9x25mm Dillon	.454 Casull
.38 S&W	.480 Ruger
.38 Special	

**\* Rimfire cartridges may be fired in rifles or handguns. \* \* All other cartridges listed may only be fired in handguns.**
