

Tactical Conference 2024

The 2024 Tactical Conference (Tac Con 24) was a huge success. We had three days of outstanding training, competition and fellowship at a wonderful facility in Dallas, Texas.

In all there were 42 nationally recognized trainers presenting blocks of instruction, 7 staff members, 30 Range Safety Officers, and over 400 attendees present. This year 90 women participated, a number which grows every year. The match alone accounted for almost 10,000 rounds of ammunition, with another 180,000 rounds expended in classes, all without injury or incident. There were classroom lectures, live fire classes, hand to hand stuff, medical training and much more going on all three days.

The 2025 event will again be in Dallas on March 28-30, 2025. Watch our newsletter for the registration announcement. Here are some photos from this year's festivities.
